

Raven Roofing Ltd. is a busy commercial flat roofing company with over 26 years of professionalism, quality craftsmanship and success. The office and shop are located at 192nd and 34A in Surrey and our projects are located across the Lower Mainland and into the Fraser Valley.

Day 1 & 2

Your career will start in Raven's Orientation (CSA boots and a hard hat are required for this day) with our extremely talented Health and Safety Coordinator. She will get you trained in fall protection, WHMIS and inspect your Personal Protective Equipment including your fall gear. Don't have any? No problem our Coordinator will provide you with a list of items needed for the job site. On this day you will also meet Raven's dedicated Superintendents and the General Manager.

Raven's Superintendent will meet you on site on your first day of work to introduce you to your new team and to your new mentor. That's right! No experience necessary, we've got you a buddy who will train and orientate you to the world of commercial flat roofing. We've got you covered!

What kinds of jobs will you be doing?

You will be the ambassador of materials and supplies. What does this mean? It means you will be organizing, securing, covering, uncovering, moving, and cleaning construction supplies and materials. You name it the materials and supplies are yours for the organizing.

We're going to need you to be able to lift, pull, push, and drag up to 65lbs at any given time. In this role you are also going to be doing lots of bending, lifting, walking, and climbing. If you are not already in good physical shape, you will be soon.

Lastly you will have the opportunity to work with your colleagues on small roofing tasks as you begin to learn the roofing trade.

What qualities do we look for in our people?

- A self starter who can work unsupervised
- Someone who is positive and can handle stress well
- People who are not afraid of heights but instead enjoy the spectacular views this career offers.
- Warriors in all weather conditions - heat, cold, wind and rain
- People who are safety conscious with the ability to solve problems

- **Benefits.**

After 3 months full time employment you will qualify for our extensive benefit plan.

How do I send Raven my information?

Call or email our super friendly Human Resources Manager.
